

# Lee Clement

Ph.D. Candidate · Robotics, Computer Vision, Machine Learning, State Estimation

4925 Dufferin Street c/o UTIAS, Toronto, ON, Canada, M3H 5T6

☎ (+1) 647-606-5510 | ✉ lee.clement@mail.utoronto.ca | 🏠 leeclem.net | 📧 leeclemnet | 🌐 leeclemnet | 🐦 @leeclemnet

## Education

### Ph.D. Candidate · University of Toronto

Toronto, Canada

Institute for Aerospace Studies · Space and Terrestrial Autonomous Robotic Systems (STARS) Lab

2014 - Present

- Thesis topic: Appearance modelling for robust visual navigation.
- Supported by an NSERC Postgraduate Scholarship - Doctoral Program, valued at \$63,000.
- Invited to participate in the first annual RSS Pioneers workshop and mentor junior students as part of Inclusion@RSS.
- Appointed as a Postgraduate Affiliate of the Vector Institute.

### M.A.Sc. Candidate · University of Toronto

Toronto, Canada

Institute for Aerospace Studies · Space and Terrestrial Autonomous Robotic Systems (STARS) Lab

2013 - 2014

- GPA: 4.0 / 4.0.
- Transferred to Ph.D. program on recommendation of my research assessment committee, without completing the M.A.Sc.
- Supported by an NSERC Canada Graduate Scholarship - Master's Program, valued at \$21,000
- Received a Kenneth Molson Fellowship, valued at \$12,000.

### B.Sc. (Maj.) with Distinction, Physics & Computer Science · University of Manitoba

Winnipeg, Canada

Department of Physics and Astronomy · Department of Computer Science

2010 - 2013

- GPA: 4.31 / 4.50
- Received two competitive Centennial Scholarships in Physics in 2011 and 2012.
- Received two NSERC Undergraduate Student Research Awards in 2012 and 2013.

### B.Sc. (Hon.) with Distinction, Accounting & Finance · University of Manitoba

Winnipeg, Canada

I. H. Asper School of Business

2006 - 2010

- GPA: 4.13 / 4.50
- Inducted into Beta Gamma Sigma Honors Society.

## Research Experience

### Ph.D. Candidate · University of Toronto

Toronto, Canada

Institute for Aerospace Studies · Space and Terrestrial Autonomous Robotic Systems (STARS) Lab

2013 - Present

- Thesis topic: Appearance modelling for robust visual navigation.
- Advised by Prof. Jonathan Kelly.

### Research Assistant · Argonne National Laboratory

Chicago, USA

Argonne National Laboratory Physics Division · University of Manitoba Department of Physics and Astronomy

2013

- Participated in experiments with the Argonne Tandem Linac Accelerator System (ATLAS).
- Supervised by Prof. Kumar Sharma and Dr. Jason Clark.

### Research Assistant · University of Manitoba

Winnipeg, Canada

Department of Physics and Astronomy

2012

- Developed astrophysical modelling software.
- Supervised by Prof. Jason Fiege.

## Teaching Experience

### Subject Matter Expert · Coursera

Toronto, Canada

University of Toronto

2018

- Self-Driving Cars Specialization

### Course Instructor · University of Toronto

Toronto, Canada

Division of Engineering Science

2018

- AER 521: Mobile Robotics and Perception
- ROB 501: Computer Vision for Robotics

### Teaching Assistant · University of Toronto

Toronto, Canada

Division of Engineering Science

2015 - 2018

- ROB 301: Introduction to Robotics
- AER 521: Mobile Robotics and Perception

**Postgraduate Affiliate • Vector Institute**

Toronto, Canada

Vector Institute Postgraduate Affiliate Program

2019-2020

- The Vector Institute drives excellence and leadership in Canada's knowledge, creation, and use of artificial intelligence (AI) to foster economic growth and improve the lives of Canadians.
- Member of the Vector Institute Social Committee.

**Invited Participant • RSS Pioneers Workshop**

Pittsburgh, USA

Robotics: Science and Systems

2018

- RSS Pioneers is a day-long invitation-only workshop for senior graduate students and postdocs, held in conjunction with Robotics: Science and Systems, that seeks to bring together a cohort of the world's top early career researchers in all areas of robotics.

**Student Mentor • Inclusion@RSS**

Pittsburgh, USA

Robotics: Science and Systems

2018

- Inclusion@RSS focuses on programs that increase and sustain a broader participation in the robotics research community of groups traditionally underrepresented in robotics (including but not limited to: women, LGBTQ+, underrepresented minorities, and people with disabilities), especially people early in their studies and career.

**Graduate Student Representative • Faculty Council**

Toronto, Canada

University of Toronto Faculty of Applied Science and Engineering

2017-2018

- Faculty Council sets and approves academic policy, principles, priorities, and the general direction for the teaching and research activities of the Faculty of Applied Science and Engineering.

**Graduate Student Representative • Community Affairs & Gender Issues Committee**

Toronto, Canada

University of Toronto Faculty of Applied Science and Engineering

2017-2018

- The CA&GI Committee seeks to improve and to recommend on strategies related to student recruitment and outreach and quality of life within the Faculty community, including the student experience, gender issues, diversity, safety and security, and personal conduct.

**President • Aerospace Students' Association**

Toronto, Canada

University of Toronto Institute for Aerospace Studies

2016-2017

- The ASA represents graduate students at UTIAS and organizes athletic, social, academic and professional events.
- Previously: Social Coordinator (2015-2016).

**Co-founder / Aerospace Representative • Graduate Engineering Council of Students**

Toronto, Canada

University of Toronto Faculty of Applied Science and Engineering

2016-2017

- The Graduate Engineering Council of Students (GECos) acts as a forum for all Engineering Graduate Student Associations at UofT to collaborate and represent Engineering graduate students.

**Student Member • UTIAS Student Experience Committee**

Toronto, Canada

University of Toronto Institute for Aerospace Studies

2015-2017

- The SEC gathers data about the UTIAS student body's experiences at the Institute and makes a report to the Director summarizing the data and suggesting improvements.

**Re-founder / Director • SEDS-Canada**

Toronto, Canada

Students for the Exploration and Development of Space

2014-2017

- Students for the Exploration and Development of Space (SEDS) is an international group of student-run organizations dedicated to promoting public interest in space.
